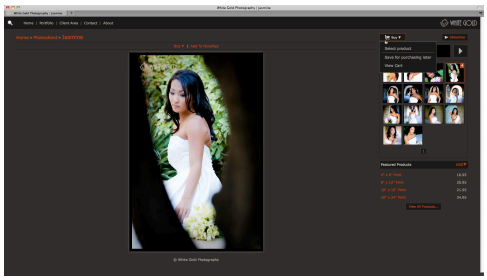
Purchasing Prints



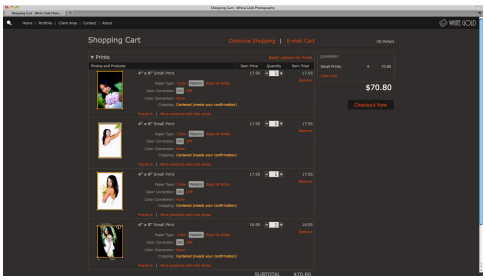
To purchase prints from your galleries, select the photo, and click ‘Buy’.

Go to prints, and pick the print size that works best for you. After you have decided the paper type and quantity of prints, click ‘Add to Cart’.

You can chose to buy more prints with the selected photo, or to continue shopping for more photos to purchase.

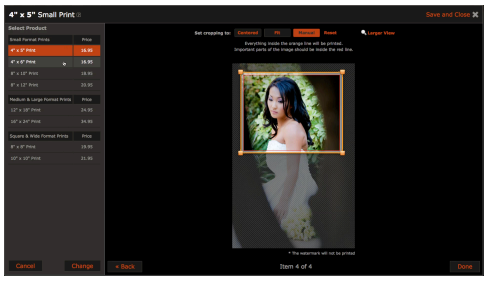
If you return to your gallery’s thumbnail view, select multiple photos by scrolling over each thumbnail of the photos you want, and check ‘Select’. When you have selected all your photos for purchase, click ‘Buy’.

Like before, navigate to the print size you want to purchase, decide the paper type and quantity of prints, then click ‘Add to Cart’.



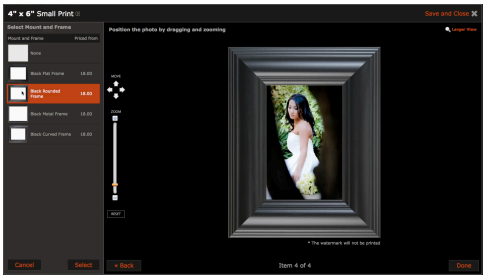
When you are done adding photos for purchase, view the shopping cart and verify all your selections. You can make print changes to any photo by clicking the thumbnail.

For photos that do not fit the print size, try setting the cropping to fit or centered. You can also crop the photos manually by selecting the corners of the orange cropbox to resize the printed area. Then select the area inside the cropbox to drag the box to a new location. You can also use the top-right arrow of the box to change the rotation. To avoid printing white areas, you may need to crop again until only the photo appears within the box.



On the left, you can select other print options such as ‘paper type’. If you would like to choose a different print size that better matches your photo, you can ‘change product for this photo’ and select a new size. Check the size by using the ‘fit’ crop option.

You may have the option to add a frame or mount. Simply pick from the list of choices, then crop the photo as necessary by zooming with the lever, selecting the photo, and dragging it to where you want it. Allow some overlap between the edge of the photo and frame. When you’re done, click ‘Save and Close’.



Once you have made all your changes to the prints in the shopping cart, click ‘Checkout Now’.
